

## Q3 EXPANSION PROPOSAL

Prepared for the Board — August 2026

### Regions

| Region  | New stores | Capex (\$M) | Yr-1 revenue (\$M) |
|---------|------------|-------------|--------------------|
| North   | 16         | 3.2         | 8.8                |
| Central | 10         | 2.0         | 5.6                |
| South   | 14         | 2.8         | 7.6                |
| Total   | 40         | 8.0         | 22.0               |

### Why we should do this

-  The market is growing and we are under-stored versus competitors
-  Payback is about 14 months at the base case
-  40 new stores add roughly \$22M of annual revenue
-  We already have a proven store format and a pipeline of sites

### The ask

Approve \$8M of capex to open 40 stores in the second half of 2026.

Decision needed by end of August to hit H2 openings.
